# The Seminary

Williamsport Dickinson Seminary is a high grade boarding school for both sexes. It has long since ceased to be an experiment. For sixty-three years it has been doing its work with constantly increasing efficiency.

## Location

Williamsport is called "The Queen City of the West Branch of the Susquehanna River." It is famous for its picturesque scenery, its healthful climate, its beautiful homes, and the culture and kindness of its people. The New York Central, the Reading, and the Pennsylvania Railroads, with their fast trains, put Williamsport within two hours reach of Harrisburg, four and one-half hours of Philadelphia, and seven hours of Pittsburg.

## Aim

The Seminary aims to fit for college and for life. It will prepare students for any college or technical school. For those who do not plan to go to college, it offers exceptionally strong courses leading to appropriate degrees. The large number of graduates who have gone directly from the Seminary to their life work, and are now filling high positions is the best possible testimony to the educational value of these courses.

## Faculty

The Faculty is composed of thoroughly trained, carefully selected Christian men and women. The two ideals they hold before themselves are scholarship and character.

### A Home School

Every effort is put forth to make the Seminary as home-like as possible. The instructors live with the students, room on the same halls, eat at the same tables, and strive in every way to win their confidence and friendship.

### A School of Culture

The Seminary aims to develop in its students an easy familiarity with the best social forms and customs. Intercourse with young people of both sexes in the dining hall, at receptions and other social functions, together with frequent talks by instructors, do much in this way for both ladies and gentlemen.

### A Religious School

The Seminary is a religious school. It is not sectarian. At least four religious denominations are represented on its Board of Directors. Every student is encouraged to be loyal to the church of his parents. But the atmosphere of the school is positively and aggressively religious. Every effort is made to induce students to enter upon the Christian life and be faithful thereto.

### Discipline

The Seminary believes that young people can be led better than they can be driven. It strives to inspire its students with high ideals, rather than to force them to do right through fear of punishment. But any lawlessness is promptly, and if necessary severely dealt with. Those who will not try to do right are not wanted at the Seminary.

### The Sexes

The ladies' apartments are entirely separate from the others. Young ladies are chaperoned to all public entertainments. *There is no association of the young ladies and gentlemen except in the presence of the instructors.*

*James V. Brown Library*

## **Athletics**

The place of athletics in the life of the modern school is fully recognized. Attendance in the gymnasium is compulsory. Two Physical Directors care for the health of the students and direct their athletic work. One of the finest athletic fields in the State offers every facility for foot ball, base ball, tennis and other out-door sports.

## **Buildings**

The buildings are of brick. They stand upon an eminence overlooking the city, in the midst of about six acres of beautiful grounds. The rooms are large, airy, and well furnished. The buildings are lighted by electricity, heated by steam, and supplied throughout with hot and cold water and all the modern conveniences. Constant care is exercised to preserve the best sanitary conditions.

## **Literary Societies**

Three Literary Societies, the Belles Lettres, Gamma Epsilon and Tripartite Union, with well selected libraries aggregating over two thousand volumes, are maintained by the students.

## **Library**

A reference library is part of the equipment of the Seminary and every effort is made to train the student in an intelligent use of the same.

The James V. Brown Public Library is within two squares of the Seminary. Its large collection of books as well as its courses of lectures and entertainments are freely open to all students of the Seminary.

## Special Information

Young people of good moral character may enter the Seminary at any time for a single term or longer.

Applicants must bring certificate of work done and recommendation from school previously attended or from former instructors.

Students from a distance are required to live in the buildings. But those having near relatives residing in Williamsport are sometimes granted permission to make their homes with them.

Students are expected to come on the first day of the term and remain until the last day. Absences from classes at the beginning or end of the term *count double* and cannot be excused.

Parents should not call their children home during the term. Any absence interferes with good work.

Permits from home are accepted as advices, not mandates. In any case the final decision as to whether a permission will be granted, rests with the President and Faculty. No permit will be considered unless it has been mailed directly to the President.

No student shall be considered as having severed his connection with the Seminary until notice has been given and permission obtained from the President.

Students must report at the Seminary immediately upon arrival in Williamsport.

Students should be sparingly supplied with spending money. Whenever desired a member of the Faculty will act as patron, paying weekly such allowances as may be designated, and supervising all expenditures.

Students are not allowed to visit drinking saloons, pool rooms, the theater or similar places of amusement. Disobedience of this rule will be followed by dismissal.

Any student, who for disciplinary reasons, is requested to leave the city before a certain time, shall be considered as having expelled himself if he delays his departure beyond the designated time.

The Sabbath must be strictly observed. Attendance upon church services is required of all.

Students are expected to provide themselves with Methodist Hymnals (new edition) for use in the chapel service.

Meeting or engaging in conversation by ladies and gentlemen is forbidden except at such times and places as may be arranged for by the Faculty.

Guests may be entertained only when the permission of the President has first been obtained and their hosts pay the regular rates for their entertainment. Parents or guardians visiting pupils are for the first twenty-four hours the guests of the Seminary. No visitors are allowed on halls or in the students' rooms without permission.

Everyone who desires to continue as a student of the Seminary must show a reasonable disposition to comply with its regulations. In addition to the above some of the things expected are the following:

To be present at recitations or in his own room during study hours.

To keep his room and furniture in good condition.

To pay at once for any damage done by him to furniture, room, or any part of the grounds and buildings.

To refrain from using tobacco about the buildings or grounds and to abstain from all coarse or profane language.

Not to leave the city or go bathing, boating, skating, fishing, gunning, or riding without permission from the President.

To obtain the permission of the Faculty before dropping any study which has been taken up.

Day students during school hours are under the same regulations as the boarding students. They are required:

To study quietly in the Study Hall when not in actual attendance upon recitations.

To attend the morning chapel services.

To procure from parent or guardian a written excuse for absence from chapel or recitation.

To abstain from all visiting in dormitory halls or in students' rooms during study hours.

## Terms

A registration fee of \$5.00 from boarding students, \$2.00 from day students must be paid at the time of registration. An annual fee of \$5.00 is collected from every student. In return for this the student receives tickets admitting to all athletic contests, concerts, lectures, etc., arranged for by the Seminary.

The following rates are for two students rooming together. Students rooming alone must pay, at the time the room is engaged, an extra charge of ten dollars per term.

Every necessary expense is included. The charge covers tuition, board with furnished room, heat and light, laundry (twelve ordinary pieces per week), gymnasium and athletic fees, church sittings; indeed,

everything except books and clothing. Parents who send their children to Williamsport Dickinson Seminary may know exactly what the year's expenses will be.

	TERM	YEAR
Boarding Students .....	\$100.00	\$300.00
Boarding, Without Tuition .....	80.00	240.00
Tuition (Day Students) .....	20.00	60.00
Annual Fee .....		5.00

For extra service, such as meals served in rooms, additional laundry work, studies other than those in the course, etc., an extra charge will be made. For those in the regular courses there are *absolutely no extras*.

**Separate charges are made for Music, Art or Expression, as follows:**

The rates given are by the term and for private lessons, unless otherwise stated. For less than a term's work the charge will be \$1.00 per lesson for Music, \$ .75 for Expression or Art.

No reduction will be made for lessons missed by the pupil.

## Music

The rates for Piano, Vocal, Violin, Harmony, Cello, Mandolin or Guitar are the same—two lessons per week, \$21.00 per term, or \$63.00 per year; one lesson per week half these amounts.

For the use of a piano for practice (two periods a day), there will be a charge of \$4.00 per term.

Chorus Class: One lesson a week, \$2.00 per term.

Pipe Organ: A charge of \$1.00 per lesson is made; this includes rent of organ for practice.

## Expression

Private lessons (two a week), \$15.00 per term.

Classes of four or more, \$4.00 per term.

## Art

This department offers work in water colors, oil, charcoal, china, arts and crafts, and other branches.

Individual instruction, two lessons a week, \$15.00 per term; daily lessons, five a week, \$21.00 per term.

Saturday morning class in drawing, \$3.50 per term.

Mechanical drawing, \$3.50 per term.

*Bradley Hall*

## Type-Writing

Students not in commercial courses using typewriters will be charged \$4.00 per term for use of machine and instruction.

## Payments

All bills are payable in advance, one-half at opening, one-half at the middle of the term. The Seminary cannot carry accounts over. *Students whose bills are not paid two weeks after they are due must be withdrawn.* One man can arrange for the amount due by him more easily than the Seminary can arrange to carry a deficit caused by the failure of a large number of patrons to pay promptly.

## Discounts

The children of ministers who are serving churches in Williamsport may receive free tuition at the Seminary.

Special discounts are allowed on the regular \$60 and \$300 rates to the following:

- (1) Two students from the same family at the same time.
- (2) Children of ministers.
- (3) Students preparing for the ministry or missionary work.

Not more than one discount will be allowed to any student.

Discounts will not be allowed for less than a full term.

The Seminary reserves the right to withdraw any discount from a student whose work or behavior is unsatisfactory.

## Courses of Study

The Diploma of the Seminary will be awarded to the student who completes any one of the following courses: Course in Commerce; College Preparatory; Scientific; History and Literature; Piano; Vocal Music; Violin; Expression; Art.

Degrees will be conferred as follows: Upon those completing the Classical Course the Degree of Bachelor of Arts will be conferred.

Upon those completing the Science and Literature Course the Degree of Bachelor of Science will be conferred.

Upon those completing the Belles Lettres Course the degree of Mistress of English Literature will be conferred.

In order to graduate with a Degree or a Diploma a student must have spent at least one year in study at the Seminary and also have paid all his bills.

Emphasis will be laid upon thoroughness of work. The Faculty reserves the right to limit the number of studies which any pupil will be allowed to carry.

Students who do not intend to pursue one of the regular courses, with the consent of their parents and the approval of the Faculty, may elect such studies as they desire.

### The Junior Department

A limited number of children over six years of age are received as day pupils. For the accommodation of these a large well lighted school room furnished with all modern equipment is reserved. A competent teacher especially trained for this work gives to each pupil an amount of individual attention such as could not under ordinary conditions of school life be given. The special teachers in Art, Expression, Vocal Music, and Physical Training give the children lessons in these subjects and the course of study and methods of instruction are such as are in use in the best primary schools.

## The Academic Department

Young or backward pupils who are not prepared for the work of the regular courses enter the Academic Department. Here regularly graded classes in all the common English branches afford opportunity to take such work as they are fitted for. The work of the last year includes Arithmetic, Grammar, English Composition, Geography and Map Drawing, American History, Reading, Spelling and Penmanship.

For more detailed information as to text books used, methods, etc., see under Departments.

## English Bible and Ethics

PRESIDENT EVELAND.

The English Bible is a required study. Every student, whether in a regular course or a special student, is assigned to one of the Bible Classes. The effort is made by the use of text books and lectures to acquire a familiarity with the outline and most striking events and characters of Biblical History. (One period a week.)

The work in Ethics seeks to acquaint the student with the ideals of the different Ethical schools and to show the reasonableness and necessity of loyalty to high moral standards. The text book is Elements of Ethics (Muirhead).

## Sciences

DEAN McCLOSKEY.

The development of the powers of observation and reasoning, as well as the acquirement of a fund of practical knowledge is the aim of all the work in science. Work is done covering the requirements for admission to colleges and technical schools, while for those who do not plan to go to college additional work is offered.

Physics (a First Course in Physics. Mellikan and Gale). A full year is devoted to Physics. The work of the three terms is divided as follows: (1) Mechanics and Heat; (2) Sound and Light; (3) Electricity and Magnetism. There is a well equipped laboratory and the student is required to keep a clear and accurate record of work done and results obtained.

Chemistry (Brownlee and others). Work in Analytic Chemistry is also offered as an elective. The laboratory is furnished with individual tables and supplied with gas,

Bunsen burner, ring stand, water, case with full set of reagents and all necessary apparatus for illustrative experiment and quantitative analysis.

Geology (Brigham). The surrounding country offers unusual opportunities for the study of Geology directly from the book of nature. Every student makes a written report and collects characteristic specimens and fossils, representing the seven different geological formations presented by outcrops, within a few miles of the Seminary.

Zoology (Linville and Kelly). The simpler laws of life are taken up and a practical study made of the fern, earth-worm and frog. The oyster, crab and cat are also dissected and the general relation in structure and physiology of animals is carefully brought out.

Botany (Bergen's Elements). The laboratory method is followed. Compound microscopes are accessible to the class and pupils are provided with a powerful lens and apparatus for plant dissection. But the emphasis is laid upon a study of the plants themselves rather than upon plant analysis.

Physiology (Colton). A thorough course in advanced Physiology and Hygiene is given. The method combines that of the text book and laboratory.

Photography. A dark room and complete photographic outfit is part of the Seminary equipment.

## English

MISS BOWMAN.

The aim of the work in English is to develop as far as possible, in every student, the power to write correct and forceful English, and to understand and appreciate the best things which others have written. The foundations are carefully laid in a study of formal grammar, the principles

of which are constantly reviewed throughout the course. Themes and longer compositions are frequently required. These are examined, corrected and returned to the pupil for revision or for new work of a similar character. Essays and orations for public delivery are required from all students in English III and IV. The schedule of English Classics for college entrance requirements is followed throughout the four years and in English III text books on American and English Literature are studied in all the classes. Careful attention is given to oral English.

#### FIRST YEAR.

Reading, Letter Writing, Spelling and Punctuation are given throughout the year. Careful drill and review of Grammar. Practical exercises are given in order that the student may learn to construct sentences that obey the laws of syntax. Students are taught how to use the dictionary. Elementary Words and Sentences (Hitchcock) is used as a basis for this work. A study of English Composition (Scott and Denney) is begun. What to write about; theme building; paragraphing; clear and correct expression. Attention is paid to Oral Composition to secure accuracy of speech.

The classics read and studied are *Lady of the Lake*, *Scott*, *Sketch Book*, *Irving*, *Vicar of Wakefield*, *Goldsmith*—To be read out of class. *Inland Voyage and Travels with a Donkey*, *Stevenson*.

#### SECOND YEAR.

With Composition and Literature (Scott and Denney) as a text, a careful study of Composition is continued through the Sophomore and Junior years. Especial attention is given to sentence building and methods for enlarging and correcting the vocabulary. The rhetorical principles of

unity, coherence and force are carefully studied. The paragraph is made the basis of this systematic study.

The classics read are *Ivanhoe*, *Scott*; *Sir Roger de Coverly Papers*, *Addison*; *Merchant of Venice*, *Shakespeare*, *Silas Marner*, *George Eliot*.

#### THIRD YEAR.

Composition and Rhetoric completed and reviewed. Sufficient work is done in Poetics to prepare the student for understanding and enjoying English poetry. Weekly theme writing. Brief essays or orations for public delivery are required. All students follow Outline Study of English Literature (Howe) in connection with their work with the classics. More extensive courses in American Literature (Pattee) and English Literature (Pancoast) are elective. The classics for this year are: Prologue, *Chaucer*; "As You Like It," *Shakespeare*; *Macbeth*, *Shakespeare*; *Lycidas*, *Comus*, *L'Allegro* and *Il Penseroso*, *Milton*; *Vision of Sir Launfal*, *Lowell*.

#### FOURTH YEAR.

Two essays or orations for public delivery are required. Weekly themes written in class. The elements of debate are studied and practiced. Careful study of the following classics: *Speech on Conciliation*, *Burke*; *Essay on Burns*, *Carlyle*; *Sesame and Lillies*, *Ruskin*; *Rime of the Ancient Mariner*, *Coleridge*; *Idylls of the King*, *Tennyson*; *Henry Esmond*, *Thackeray*.

#### History

##### MISS ALBERT.

The course in history runs through three years. Four hours per week are given to this work. Starting with the beginnings of civilization in the ancient empires of the East, the student traces the steps of human progress through Greece and Rome, thence through medieval and modern

Europe noting carefully in England and Continental Europe the providential preparation for the new world that was to be opened across the Atlantic, and so comes fully prepared to an intelligent study of the social, industrial, and political history of the American people. The student is taught to use both text book and library. Work in historical reading and investigation is assigned and verbal and written reports made to the class.

#### FIRST YEAR.

Two terms are spent upon Ancient History (Wolfson) and one upon Medieval History (Harding).

#### SECOND YEAR.

During the first term, Modern History (Harding), is covered. The last two terms of the year are given to a study of English History (Walker). The evolution of the English Constitution is traced and emphasis is laid upon that portion of European history which is contemporaneous with our own colonial period.

#### THIRD YEAR.

American History (Hart), and Civil Government (Moses), with frequent references to source books and other works of reference. The student is brought to a clear understanding of the evolution of our National, State and local Governments, and the commercial and industrial as well as the political history are carefully studied.

#### ELEMENTARY COURSE

Elementary work in United States History (McMaster's School) is a part of the Academic and Scientific Courses.

#### Ancient Languages

##### PROFESSOR NORCROSS.

The practical value of a study of the classics has often been questioned but nothing has ever been found to take

their place. They are still retained in the best courses of the best schools, and are pre-eminently adapted to bring the student to an acquaintance with language and life.

The Preparatory course offered by the Seminary covers the needs of those preparing for college or technical school. The Classical course is more extensive and offers considerable of the work usually done in college. Every effort is put forth to make the study a live and interesting one to the student. Scrupulous attention is given to grammatical structure, the relation of these languages to English, the illustration and application of principles, accuracy and elegance in translation and the literary significance of the authors. Prose composition is carried through the course and Mythology and Classical Geography (Tozer) are studied in the Senior year.

## Latin

## Mathematics

### PROFESSOR RAWLINS

The Seminary offers a full course in Mathematics, covering the work done in many colleges. College Preparatory students are given such work as will fit them for the college or technical school they wish to enter.

Careful effort is put forth to vitalize the Mathematical work by giving interesting practical applications of the principles involved. The interest of the student in his work is heightened as he finds that it has a practical as well as a disciplinary value.

Arithmetic (Milne Standard). Completed in Academic course and in first year of Belles Lettres, College Preparatory and Commerce courses.

## FIRST YEAR.

## SECOND YEAR.

Geometry, Plane and Solid (Wells, new). The student is helped to a comprehension of the geometric concepts by concrete illustrations and careful verbal explanation. In the work of demonstration clearness and exactness of statement are insisted upon. To develop the student's own powers of reasoning much original work is given.

### THIRD YEAR.

Strong courses in Analytic Geometry (Wentworth); Calculus (Osborne, Differential and Integral), and Astronomy (Comestock, Textbook) are offered to Seniors whose previous preparation has been such as to qualify them for the work.

### Psychology, Logic, Literature

MISS MACK.

Psychology (Halleck). Upon a sound physiological basis is built a careful study of the underlying principles of habit and thought.

Logic (Jevons-Hill). To develop the powers of correct thought and argument in oneself, and the ability to detect at once the fallacy or weakness in the thought and argument of others is the aim of this course.

Literature. Apart from the required work more extensive courses are offered in English and American Literature. In addition to the historical study, students are introduced to representative masterpieces and are helped to understand and enjoy what is best in our language. The texts used are Pancoast's Representative English Literature, and Pattee's History of American Literature, with supplementary reading.

## **Political Economy**

PROFESSOR CORDRAY.

Political Economy (Walker). The general laws governing the production and distribution of wealth are studied and every effort put forth to make the work of practical value by applying these to present day economic problems like strikes, monopolies, labor unions, etc.

## **Physical Training (Girls)**

MISS HOBART.

The aim of this work is the care and development of the body by means of appropriate exercises. The results achieved are better health, good poise, and the overcoming of physical defects. The work is planned in accordance with scientific principles. Physical examinations are required and corrective work assigned. American and Swedish systems are used and a complete course given.

## **Athletics and Physical Training (Boys)**

PROFESSOR CORDRAY.

Persistent effort is made to interest every boy in some form of out-door sport. The athletic teams are carefully selected and trained. They are sent into a game to win if they can, but more emphasis is placed upon playing the game fair and straight than upon winning. During the inclement weather every boy reports three times per week for gymnasium work. An inexpensive regulation suit can be procured after reaching the Seminary.

## **Expression**

MISS HOBART.

Expression is taught as an art resting upon the recognized laws of nature. No effort is made to fashion the pupil

after any fixed models. The aim is to quicken and develop the intellectual faculties, cultivate the imagination, and discipline all the agents of expression.

Students who expect to graduate must have studied and passed satisfactory examinations in all the common English branches, Physiology, Psychology and American and English Literature. One public recital must also be given.

#### SOPHOMORE YEAR.

Evolution of Expression—Volumes I and II—Voice Culture, Aesthetic Physical Culture, Study of "The Merchant of Venice" and "Taming of the Shrew." Recitations.

### **Art**

#### MISS MARSH.

The course offered provides a thorough preparation for entrance to any School of Art or Design. A careful drill in fundamental forms and theories is given, but from the beginning the student is compelled to do his own work aided simply by suggestions and corrections from the instructor.

History of Art is taught by text book and lecture. There are also lectures on Color Theory, Principles of Design and Decoration, and Artistic Anatomy according to schedule.

The course requires three years, but much depends upon the ability of the student who will be advanced as rapidly as possible.

The Seminary reserves the right to retain as specimens of work done two sheets from every student.

Students not in the regular course may elect any work for which they are prepared. Work is done in China Painting, Wood Carving, Metal Work, Tooled Leather, Model Block Printing, Stencil Cutting, etc.

## The School of Commerce

PROFESSOR HOYT.

The Seminary has been offering such courses of instruction in Bookkeeping and Business, Stenography and Typewriting, etc., as are usually offered in a Business College, and will continue to do so for the benefit of students who desire to take such work.

But the day has come when the young man or woman who desires to win large success must receive a broader training for his work. From three to four years are spent in a school of law or medicine. Why should there not be an equally thorough training for business? If a boy prepares to enter college by studying for four years the Languages and Mathematics he will need when he enters upon his work there, why should he not spend three or four years studying the world's geography and history from a commercial point of view, acquainting himself thoroughly with the theory and practice of business as it is carried on by the great industrial and financial concerns of to-day, getting a grip on the things he will need to use when he steps out into the business world? The attention of parents who have children they desire to prepare for business is especially directed to the new course in Commerce, which, in addition to what has been mentioned, includes a three years' careful drill in those common English branches which are the raw material of all our knowledge; a course in commercial law and full courses in bookkeeping and in stenography and typewriting. Students entering either the long or either of the short courses, are charged the regular rate of \$60 per year. No extras unless extra work is taken. For detailed course of Commerce see under Courses of Study.

## Piano

MISS STUART. MISS EHREN. MISS RUBLEE.

This course has recently been lengthened to four years. The character of the work required as well as the quality of the instruction will, it is believed, still further increase the high reputation the Seminary has already won.

Students who have had sufficient previous training will be admitted to the Freshman class. Only those passing satisfactory examinations will be admitted to the higher classes.

Pupils taking but one lesson a week cannot complete the course in the prescribed time.

All candidates for graduation, in either instrumental or vocal music, must have studied and passed satisfactory examinations in Harmony and History of Music and must have given public recitals.

The musical students meet fortnightly for lectures and public practice.

No reductions will be made for lessons missed because pupils have failed to present themselves at the time appointed, nor is the teacher under any obligations to make up such lessons with the pupil.

## Violin

### DOCTOR BUTLER.

This department offers unusual advantages to the student who desires to gain a broad and thorough knowledge of the violin and to become an artistic performer in the shortest time possible.

The course requires two lessons a week through a period of from three to four years according to the ability of the student. It is founded upon the best conservatory methods and will be adapted to the needs of the pupil. Because of the very careful attention that must be given beginners in

violin to produce correct results in bowing, fingering, position and intonation no less than two lessons a week will be given during the first year's work unless the pupil, after a term of lessons, shows exceptional ability.

It includes Chas. Dancla's School of Mechanism, scales, preludes, chords, etc., op. 74, Fifty Daily Exercises, selected; Schradieck's scale and chord studies, exercises in double stopping and bowing; Kayser, op. 20, 62, 68, 31, etc.; Kreutzer, "Forty Caprices;" Fiorillo, "Thirty-six Caprices;" Rode, "Twenty-four Caprices," and solos, sonatas and concertos from the master composers. An ensemble class is a feature of the work.

Candidates for graduation must study one year at least in the institution, play on the public programs, give one public recital and pass satisfactory examinations in Theory, Harmony and Musical History.

### **'Cello, Mandolin and Guitar**

DOCTOR BUTLER.

The course in violoncello is equivalent in grade to that of the violin and is based on Kummer's studies.

The work in mandolin includes the two books of Cristofaro's technique.

Carcassi's studies are the foundation of the work in guitar.

### **Vocal Music**

MISS KNAPP.

The course as outlined covers four years.

#### Chorus Class

MISS KNAPP.

An opportunity for practice in singing, sight reading and musical tests is afforded by the Chorus Class, which meets weekly.

#### Pipe Organ
